This is regarding the discussion I had with the Inquiry committee

1. They have discussed with me about the loss of trees in the Kilinochchi premises. I told them as "I knew only after the report of Dr. S.Poonkothai". Followed by I explained the history of the report to the members of the Inquiry committee and I focused the members to inquire Mr. Janatheeban also since he was the person who said about the incident.
2. I told them "there are two laborers employed under the QIG grant out of that one laborer worked in the Animal farm" and I directed the members to inquire him also.
3. I have shown my signature in the log book and notified the addition of the year in the date column but it was wrongly altered as 11 instated of 15.
